SUMMARY

Software Engineer with 4+ years of experience in frontend development specializing in Angular, Type Script, and modern UI frameworks, with a proven achievement of improving application performance by 40% through large-scale migration from AngularJS to Angular 19, delivering scalable, high-quality solutions by leveraging strong expertise in UI optimization, testing frameworks, and seamless API integrations to enhance user experience and development efficiency.

EXPERIENCE

Tech Mahindra - Software Engineer

Dec. 2021 – Present

Nissan - Application Modernization

Hyderabad, India

- **Large-Scale Angular Modernization:** Migrated multiple enterprise applications from AngularJS / Angular 4 to Angular 17 - 20, delivering **40% performance improvement** and reducing technical debt.
- **Reusable Architecture & Reactive Programming:** Built reusable components, services, and pipes in TypeScript; implemented RxJS for async data handling and NgRx for centralized state management.
- **Responsive UI & Performance Optimization:** Crafted responsive interfaces using Angular Material, SCSS, and Tailwind CSS; optimized with Lazy Loading, Route Guards, and AG Grid custom renderers boosting **rendering efficiency by 30%**.
- **90%+ Test Coverage:** Achieved 90%+ code coverage across applications using Karma and Jasmine, ensuring stability and code quality throughout migrations.
- **API Integration & Agile Collaboration:** Integrated RESTful APIs with Java/Spring Boot backends; delivered solutions on schedule within Agile/Scrum teams alongside developers, QA, BAs, and architects.
- **Cloud Migration & DevOps:** Migrated infrastructure from On-Premises to AWS; managed CI/CD pipelines via Jenkins & Bitbucket; deployed containerized apps on AWS ECS.
- **AI-Assisted Development with AWS Kiro:** Leveraged AWS Kiro with Autopilot and Supervised Modes for AI-driven code generation, task automation, and custom agent creation using Agent Hooks and Steering Files.
- **Spec-Driven Development & MCP Integration:** Applied SDD methodologies and integrated MCP (Model Context Protocol) for context-aware, AI-assisted workflows, automating requirement analysis and accelerating delivery.

SKILLS

Languages : JavaScript,Type Script

Frontend Development : Angular (12+), Angular Material, AG Grid, Standalone Components, HTML, CSS, Tailwind CSS

Testing & Quality Assurance : Karma, Jasmine

DevOps & Version Control : Git, Bitbucket, Jenkins

Cloud Platforms : AWS

Development Tools : VS Code

AI-Assisted Development : AWS Kiro, Amazon Q, GitHub Copilot, AI Assisted Coding

CERTIFICATIONS

AWS Practitioner Certification

May. 2024 – May 2027

EDUCATION

Bharath Institute of Higher Education And Research

May. 2017 – May 2021

Bachelor of Technology in Computer Science

Chennai, India
